

# VESTFROST

*Scandinavian style and efficiency*

## BSKS360

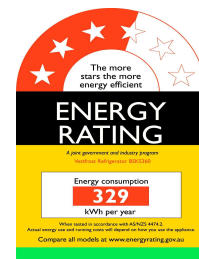

This larger refrigerator is ideal for large storage needs. Its A+ classification ensures very low energy consumption. With two doors you only open the section you want to access, maintaining even temperature in the unopened section of the unit and saving power. Flexible shelving and door options maximise available capacity.

Features include:

-  A+ Energy Rating
-  Fully automatic defrosting of the Refrigeration unit
- Reversible door option
- Childproof control panel
- Adjustable shelves
- Built in condenser

### Specifications

Net Capacity Fridge	333L
Height/width/depth (excl handle)	186/60/60 cm
Power consumption (European test @ 25°)	460 Whr/day
Noise Level	36 dB (A)

**Please note: For MEPS testing, this fridge is classed as a cyclic defrost, which gives a low star rating. When compared with automatic defrost fridges its energy rating is 5.5 stars.**
